

A condition of acceptance of a minor student is the written informed consent (of the parent or guardian) for the participation of a minor in a course where there is no pedagogical supervision. Students will be required to submit this consent upon arrival. Students will take part in their studies and accompanying program independently. The presence of minor students in a dorm room as well as alcohol prohibition compliance will be checked each day at 10 p.m. Failure to meet these conditions will result in parents being informed immediately.
